

# Mid-South Vascular Study Group

10/17/21 1:00-4:00pm (CT)

Virtual

Meeting Highlights/Action Items:

Welcome: 2 new centers: Holston Valley Medical Center and Johnson City Medical Center

Important Report Updates:

- Display of 10<sup>th</sup>/9<sup>th</sup> percentiles

- Region volume appendix

- Long-Term Follow up

- TCAR: inclusion/exclusion criteria changed.

- OAAA: now based on 4 years of data due to low procedure volumes.

Long-term follow up by year—We are still below VQI average on long-term follow up reporting, but it has gotten better.

Stroke/Death after asymptomatic TCAR—our region is higher than VQI average.

EVAR Sac diameter reporting by year—We have improved from prior years.

Areas for opportunity of improvement: ABI/Toe pressure assessment before PVI for claudication
