

Welcome to Boston!

We are extremely happy you are here for our 6th Annual VQI Annual Meeting. Whether you have been here for every meeting, or this is your first time joining us, we want your experience to be a great one.

The VQI Annual Meeting is designed to meet the needs of physicians, nurses, data managers, quality improvement professionals and administrators. The Tuesday session is designed for data managers in particular, though all members are welcome to attend.

We have a few housekeeping items to cover regarding this year's meeting.

- A Separate registration fee required to attend VQI@VAM.
- The Tuesday afternoon registry panel discussions have been designed to foster an active dialogue with annual meeting participants. We will be leveraging questions received by VQI members, as a basis for these discussions. We will also be taking questions from the live audience, so please come prepared to ask your questions to these expert panels.
- Please note: The conference opening will be a working lunch. A boxed lunch will be provided.
- The Tuesday evening Cocktail Reception will include drinks and appetizers.
- If you need assistance at any time during this meeting, please don't hesitate to connect with someone on the SVS PSO staff.

VQI@VAM is very special to us, because it gives us a chance to showcase some of the wonderful work being done to improve vascular care and patient outcomes. With over 900 participating centers and over 900,000 procedures, and all of the physicians, data managers, data abstractors and others involved in its success, the future looks very bright for the VQI.

Thank you again for attending VQI@VAM!

SVS PSO Staff
