II. General Discussion and Questions:

A. Can APP's be considered for receiving Participation Points like physicians? Taken to Participation Committee: Response: meeting scheduled for June 2022.

B. Is there a cloning feature? Response as per clinical team: Currently in PVI and will occur with the Infra/Supra launch update.

C. Could the reports be labeled with the center name? Response as per statistical team: Not at this time but will be a future consideration.

D. Receive too many mass emails/reports from Pathways, especially when part of multiple centers. Response as per Pathways/FIVOS: They are looking into this.

E. Notice firewalls from Leka only 'to', but not if 'bcc' – blocks whole group. Response as per SVS PSO Leadership – We will ensure to continue to use 'bcc'. Please continue to work with your IT department on firewalls.

F. Please send in all suggestions and clinical questions to pathwayssupport@fivoshealth.com

III. QI project Ideas:

- A. There is an interest in surveying the VVSG region to assess the availability of the areas to begin a supervised walking program. Would be interested in analyzing what is available and coming up with a statement
- B. Look at carotid interventions over time and what has changed since TCAR has become available. Dr. AbuRahma- must be in a select group of patients, cannot compare because they are different subset of patients for each. Look at what carotid services is offered at each center and what outcomes are.
- C. Opioid use across the region

IV. Next Meeting: Winchester Medical Center, Thursday, October 27, 2022
